BOOTH SHIELD™

## PEELABLE BOOTH PROTECTION

Whether you want to protect your paint booth's walls, lights, windows or floor, the Booth Shield™ line from Global Finishing Solutions® (GFS) has the right product for you. Booth Shield provides superior protection and creates a safer spraying environment. The coatings can be applied quickly and removed easily, without damaging the underlying substrate.

### Coat Any Booth Surface

Choose from a complete line of Booth Shield products to meet your booth's needs. With minimal cleanup and surface preparation required before application, GFS offers the following Booth Shield products:

Part No.	Description
236-064	Peelable White Water Based Wall - 5 gal, 385 sq. ft.
236-065	Peelable White Water Based Wall - 1 gal, 75 sq. ft.
236-063	Peelable White Solvent Based Floor - 5 gal, 125 sq. ft.
236-066	Peelable White Solvent Based Floor - 1 gal, 25 sq. ft.
236-062	Floor Prep Water Based - 1 gal, 315 sq. ft.
236-061	Wall Prep Water Based - 5 gal, 1,925 sq. ft.
236-067	Wall Prep Water Based - 1 gal, 385 sq. ft.
236-039	Translucent Water Based Wall - 5 gal, 835 sq. ft.
236-068	Translucent Water Based Wall - 1 gal, 165 sq. ft.
236-041	Peelable White Solvent Based Wall - 5 gal, 225 sq. ft.

**Note:** Excluding prep coatings, all Booth Shield wall and floor peelable coatings are available in 55 gallon drums upon request. Please contact GFS for more information.

### Brighten & Protect

Booth Shield offers outstanding coverage to protect your investment. Booth Shield coatings are easier to use than traditional paper wrap and create significantly less mess. Once dry, the floor and wall coatings can stand up to heavy use, including foot and vehicle traffic. In addition to providing protection, Booth Shield Peelable White for walls and floors can be used to brighten galvanized booths, giving them a clean white finish and ensuring prime visibility for working inside the booth.

### Easy Application

Booth Shield provides the flexibility to spray or roll the coating onto your surface and build to the thickness you need. Most wall applications are complete after just one coat, and floor coatings can withstand heavy-duty traffic after just two layers. Booth Shield dries quickly so you can resume full use of your booth within hours of application. If your booth surface is damaged, prep coats are available to ensure smooth application and release.

### Fast Removal

When it's time to remove and replace the booth coating, simply score the edges and peel Booth Shield off your surfaces. The durable film can be removed in large sections from walls, ceilings, lights and floors, saving time and creating less mess.

### Safety Features

By trapping overspray, Booth Shield protects technicians, materials and equipment from fire hazards caused by excess overspray accumulation on booth walls. Once the coating is removed, it can be compressed to consolidate waste and disposed of normally.

GLOBAL  
FINISHING  
SOLUTIONS

Global Finishing Solutions also offers the following booth protection products to keep your booth clean, bright and running efficiently and smoothly.

## Booth Paper

Booth Paper from GFS provides a clean, easily replaceable, fire retardant lining for your paint booth's walls and floors. Rolls of Booth Paper are available in varying widths to efficiently cover your booth and protect the surface from paint and contaminant buildup.

## Light Fixture Lens Protector

Protect your light fixtures from overspray and darkening with Light Fixture Lens Protectors from GFS. This clear, cling-on plastic film has a 2 mil thickness and is easy to apply and replace. Rolls are available in three widths and provide a crystal-clear protective coating, again and again.

## DirtTrack Mats

Prevent contaminants from entering the booth with DirtTrack mats. Position the multilayered, adhesive mat in front of product or personnel doors to trap dirt and dust from shoes or tires. Once a sheet becomes soiled, it can be simply peeled off and discarded, leaving a fresh mat in its place.

Part No.	Description
217-240	Clean Walk Mats - 24 in. x 30 in. One Pad Per Box - 60 Peelable Adhesive Sheets
217-241	Clean Walk Mats - 36 in. x 60 in. One Pad Per Box - 30 Peelable Adhesive Sheets
